**Core details**

Please provide a full list of core you would like to view including operator, primary & secondary bore name/s and an order of preference.

**How to view core held in stock at EDC and MIDCF:**

1. Click the link to access core held in stock at [EDC and Mount Isa Drill Core Facility](#)
2. To learn how to view the core stock held at each facility please follow the steps outlined in [viewing stock at core facilities](#) via the GeoResGlobe help section.

Exploration Data Centre is able to display approximately 800m of core at a time. If your request is more than 800m, please plan for an extra two hours for our staff to pick up and lay out more core/s.
