Core details

Please provide a full list of core you would like to view including operator, primary & secondary bore name/s and an order of preference.

How to view core held in stock at EDC and MIDCF:

1. Click the link to access core held in stock at [EDC and Mount Isa Drill Core Facility](#)
2. To learn how to view the core stock held at each facility please follow the steps outlined in [viewing stock at core facilities](#) via the GeoResGlobe help section.

Mount Isa Drill Core Facility is able to display approximately 330m of core at a time. If your request is more than 330m, please plan for an extra hour for our staff to pick up and lay out more core/s.

| Priority | Borehole/PID column | Operator | Primary Bore Name | Secondary Bore Name |
