

# Conversion of wells to water-related bores

This context diagram shows your reporting and notification obligations for the conversion of wells to water-related bores.

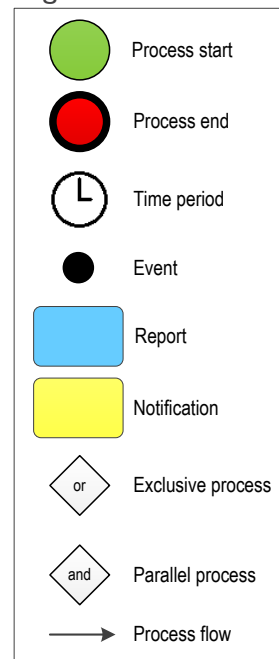

Note:  
Conversion can only occur if well was drilled after 1/1/2012

**Note:**

- You must notify us before you start converting a well to a water bore and after you have finished the conversion.
- You must also notify us and provide a report if you decommission or abandon the bore.

**Legend**
