IMPORTANT:

This document lists exempt clearing work under the *Planning Regulation 2017* and the *Vegetation Management Act 1999*. Some clearing work may be made assessable development by a local government planning scheme, or may require approval under another Act or a local law. Landholders are encouraged to familiarise themselves with the Acts and regulations relevant to their operations, and to seek advice from the local government.

This version reflects amendments to the *Planning Regulation 2017* made by the *Natural Resources and Other Legislation Amendment Act 2019* in May 2019.

For more information, please visit www.dsdmip.qld.gov.au

Introduction

The following tables provide a list of exempt clearing work.

The following three steps will assist you to determine if your proposed activity is exempt clearing work:

1. Locate the applicable table below that relates to your land tenure (e.g. freehold, leasehold etc.)
Note: Table 1 applies to all land tenures generally.
2. Find any applicable clearing activity / purpose in the first column of the table.
3. Check the Regulated Vegetation Management Map or regional ecosystem mapping to determine if the mapped vegetation category or status of remnant vegetation for the proposed clearing area is listed in the second column of the table. These maps are available on the Department of Natural Resources, Mines and Energy (DNRME) website at www.qld.gov.au.
