

# Surveying Alert

SE Qld Seminars - CSR v7.1, GNSS, Registrar's Directions

31 March 2016  
Issue 19

Version 7.0 of the Cadastral Survey Requirements became effective on 1 July 2015 and an update version 7.1 on 11 December 2015. Some of you may have attended information sessions on the key features of the new requirements conducted by DNRM at various centres around the state. A further three seminars are to be conducted during April 2016 for the south east corner of the state.

Each seminar will address the following:

- GNSS for cadastral surveying
- connection to datum
- reinstatement reports
- improvements on or near boundaries
- eSurvey plan requirements
- changes to RTDPP

Please click on the appropriate link below to reserve your seat.
